BELATED HONORS TO CLARK Just about the time Speaker Champ Clark was to graduate at Transylvania College, Lexington, Ky., he shot at a man and was expelled from the institution. He then went to Bethany College, West Virginia, and graduated and afterwards became president of Marshall College, W. Va., being known as "the youngest college" president in America." The fact that the distinguished gentleman who presides over the Bill William left Monday for the gentleman who presides over the lower house of congress was a pretty bad boy some 50 years ago, would probably not have been made public at this late day but for the fact that the college authorities decided to forgive his youthful indiscretion and issue him a diploma as doctor of laws, which has just been sent to him at Washington, to his very great satisfaction. This is another instance that Washington, to his very great satisfaction. The Lexington circuit court continues practically to license gambling houses and houses of ill fame by once or twice a year fining the people who run them and who no not stop a day from their nefarious business. If we are not mistaken these people can be sent to prison, but as long as the commonwealth's attorney gets 50 per cent. of the fines, the prison punishment will continue to be omitted. What do these gentry care for fines, which are no larger than the license would be if such discovered by the concerns were licensed?
